

The New Standard for Your Commercial Furnishing Project

As furnishing projects and logistics become more complex, we strive to provide clarity and accuracy in our process through innovative industry solutions.

To execute your project we've selected FOLIO Spatial Intelligence, the first commercial furnishing planning hub that uses decades of industry data to accurately plan spaces, reduce errors, and increase client transparency. Through your input and FOLIO, our team is able to minimize your costs and deliver outstanding quality.

FOLIO Project Dashboard

A Better Experience with FOLIO Spatial Intelligence

Defined Project Scope

We achieve a better understanding of your needs and goals by getting clear on your design style, use of space and vertical market specifics.

Accurate Budget Estimates

Receive budget proposals and estimates by each space with FOLIO's library of thousands of items with regularly updated pricing.

Clear Timelines

Save weeks' worth of time with a dealer-client collaborative workbook that tracks project details, timelines, tasks, and feedback all in one place.

The FOLIO Result

Move Quickly

We simplify the entire process to deliver your project on time and at-budget with quality and precision.

Make Better Decisions

Our approach helps improve coordination between teams, mitigate risks, and maximize outcomes through transparent and centralized communication.

Enjoy the Process

Engage with your furniture service provider to uncover, amplify, and create the workspace of your dreams!
